### NOTES

- There are times that magazine (8.5"x11") 3-Views (\* & \*\* listed prior to part number in FOTO-PAAK section) are superior to drawings listed in this Scale 3-View section. For the serious scale modeler, it is strongly recommended that **ALL** drawings of a specific model be considered for comparison. **NO DRAWING IS PERFECT!**
- Since drawings are easily copied, they are not returnable except if error originates with me.

**• PLEASE make sure you use source (Prefix) of drawing# to ensure proper filling of order. (Not needed on (\* or \*\*) 3-View orders.**

- Some of the drawings are very old or from unusual situations and may be less than perfect. You will always get the best I can copy. It is strongly recommended that if you are serious about your project, you will order every drawing available so that you can choose the most appropriate for your needs.
